Overview

Computer Science graduate with 6 months of professional experience as a Warranty Head at Okinawa Autotech, where I managed warranty data, handled end-to-end claim processing, and resolved customer issues using Excel and CRM tools. I combine real-world operational experience with strong technical skills in web development (HTML, CSS, JavaScript, React), data handling (Python, SQL, DBMS), and networking (CCNA). I thrive in fast-paced environments, enjoy solving problems through data and clean interfaces, and am seeking an entry-level web development or IT role where I can build impactful products and grow continuously.

EDUCATION

Sushant University — Gurugram
B.Tech in Computer Science and Engineering — *Graduation: 2025*

Drona Public School — Gurugram
Class XII (CBSE) — Percentage: 80.0% — *2021*
Class X (CBSE) — Percentage: 85.4% — *2019*

EXPERIENCE

Okinawa Scooters & Motorcycles India Pvt. Ltd. — September 2025 – Feb 2026
Gurugram

- Managed and maintained warranty data, ensuring accuracy and proper documentation of all claims
- Handled end-to-end warranty claim processing — validation, approval, and tracking
- Used Excel and CRM tools for data management, reporting, and customer tracking
- Analyzed claim data to identify recurring issues and improve operational efficiency
- Resolved customer escalations and coordinated with internal teams and service centers
- Improved workflow efficiency through better data organization and structured record-keeping

PROJECTS

Customer Data Dashboard | *React · SQL · Python*

A data dashboard that visualizes customer and operational data with filtering and analytics views. Inspired by real-world CRM experience at Okinawa — built to turn raw data into actionable insights using React for the UI and Python/SQL for data processing.

E-Commerce Website | *HTML, CSS, JavaScript*

A fully functional e-commerce platform inspired by Myntra, featuring product listings, category filtering, cart functionality, and a responsive layout. Built with vanilla JS for dynamic interactions without any framework dependency.

Personal Portfolio Website | *HTML, CSS, JavaScript*

A responsive personal portfolio showcasing skills, projects, and professional background. Designed with clean UI and smooth navigation to present work effectively to recruiters and hiring managers.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, HTML/CSS , React
Frameworks: Django (basic), REST API, FastAPI (learning)
Libraries/Tools: Git, VS Code
CS Fundamentals: Data Structures & Algorithms, DBMS, OS, CN, OOPs
Interests: Web Development

CERTIFICATES

CCNA- Ducat
Web development in Ai
